

Notice to All Property Owners adjacent to the City Marina/City canal from inlet at Gulf to 32nd Street:

The City's Phase II dredging operations will begin within the next two weeks and continue for the next 2 months. The City's Dredge Contractor has inspected the project site and noted that boat lifts are not raised sufficiently high enough to allow safe access within the canal for dredging. All property owners who submitted a Hold Harmless are requested to **raise boat lifts** as high as possible (as close to the roofs of slips) no later than **January 7th** in order to ensure dredging will be performed within the vicinity of these areas. Dredging within the canal near any boat lifts that are not raised to a level deemed safe by the Dredging Contractor will not be performed
