## 2007 Marine Dredge

Purchased in 2007, the 16 x 40 hull was built in Panama City, Florida by inland Marine.

Powered by a V12-71 Detroit with twin 671 supercharges.

Pump is a Metso J30 10" suction and 10" discharge.

Packing gland pump is a Peerless 3" x 2".

Dual fuel tanks with 350-gallon capacity each.

Repowered in May of 2023 at a cost of \$30,300.00

J30 Metso pump was updated with a new shaft, bearings, and packing sleeve costing \$8,000.00.

Peerless packing gland pump was updated with new bearings and seals costing \$1,500.00
